

The Dutch brand Reginox is known as an international pioneer in the market for stainless steel sink units and wash basin units. At Reginox we realize that leadership entails expectations and obligations. That is why we continually invest in our production methods and techniques. Due to the modern and high-quality methods it is possible to develop innovation at the drawing board, and to put into production very quickly. It is also essential that we have well-trained and experienced professionals for this.

This places Reginox in a strong strategic position in the world market. Every year we organize and manage the production of more than half a million stainless steel sinks and wash basins. In more than a 100 different styles and designs. From the one-stop-shop perspective, we also serve our market with taps, worktops, waste bins and other accessories.

VERY DUTCH

DUTCH MANUFACTURE SINCE 1976

Reginox is located in Rijssen in Twente. Here all our stainless-steel sinks are developed and produced. With a very modern machine park, we manufacture more than 100 different sinks for the national and international kitchen market. Through constant innovation and responsible production, with an eye for people and the environment, Reginox has a leading position in the world market.

DESIGN

Reginox knows the value of design and knows how to make the most beautiful stainless steel designs. Based on the internationally famous 'Dutch design' we succeed to innovate again and again. With attention to detail, a sharp eye for accuracy and the right balance between functionality and design. Every sink is a nice piece of customization.

OUALITY SINCE 1976

Every Reginox sink is manufactured with the most modern deep drawing techniques and the best stainless steel. The core value of our brand is quality. We monitor this from raw materials procurement to production, from transport to aftercare.

We make it as easy as possible for you: if it is from Reginox, you can rely on it.

AN EYE FOR PEOPLE AND ENVIRONMENT

Corporate Social Responsibility is producing with an eye for people, the environment and society. Reginox is FSC certified and our sinks consist of 70% recycled steel. We offer our people pleasant working conditions and contribute to the protection of our environment through raw material control and energy saving. We see this as our duty for the next generation.

EXPERIENCE

With more than 40 years of experience in the kitchen market, Reginox guarantees successful products. We know what consumers want and what professionals expect. We respond to this with innovative quality products. Reginox combines experience with continuity.

SIMPLE INSTALLATION THE PANAMA IS A COMPLETE DRAINAGE SYSTEM WHICH SAVES A LOT OF

SPACE IN EVERY KITCHEN CUPBOARD. THE WASTE TRAP IS REPLACED WITH AN INTEGRATED RECOIL RUBBER. THE WASTE WATER PUSHES THE FLEXIBLE RECOIL RUBBER ASIDE AND IS DISCHARGED INTO THE SEWER. AFTERWARDS, THE RUBBER CLOSES THE SIPHON AGAIN, SO THAT NO WATER OR SMELL CAN RETURN. THE INSTALLATION IS VERY SIMPLE. THE SPACE-SAVING SIPHON CAN BE DIRECTLY CONNECTED TO THE EXISTING DRAIN. THE PANAMA IS SUITABLE FOR BOTH NEW AND ALREADY PLACED SINKS.
